

Apparaflex 3D Formed Heat Transfer Emblems

- Make your logo pop with a 3D formed design
- Abrasion, water and solvent resistant
- Heat transfer or stitch to products including shirts, hats and bags
- Variety of finishes and colors available

Description

Apparaflex 3D Formed Heat Transfer Emblems are a great alternative to embroidery and patches with a wide variety of colors and finishes including chrome, carbon fiber, matte, glossy, velvet, satin, woodgrain, suede and leatherette.

Promote your brand and enhance your product with Apparaflex 3D Formed Heat Transfer Emblems. Customize these emblems with the shape and color of your logo or graphic. Form different elements of your design to create a 3D multi-layered finish.

Attach the emblems with a heat-seal or stitch them in place to a variety of products including shirts, hats and bags. Letters and numbers can be die cut and individually spaced with pre-mask for easy application. Averaging 40 wash cycles, the Apparaflex 3D Formed Heat Transfer Emblems are abrasion, water and solvent resistant.
