

Curb Markers

- Temperature and UV-stable
- Impact and abrasion-resistant
- Install without any special tools or surface preparation
- Custom or pre-serialized numbers and letters

Description

Clearly identify utilities, service lines, valve locations, manholes, storm drains, cable routes, test stations and distance markers with our durable Curb Markers. With a clear, UV-stable, self-healing and non-yellowing urethane dome, the markers are protected against harsh environments, mechanical and chemical abrasion.

Create custom messages or use pre-serialized markers in a variety of sizes to fit your business needs. Easily install the markers with PS-800 permanent adhesive.

Kits available upon request.
