

Flexible Sidewalk Barriers

- Create an instant barricade
- Add a strong warning message
- Customize length to fit work area
- Space-saving compact

Description

Instantly direct traffic away—ensure pedestrian safety.

Make safety your number one concern! Highly visible Sidewalk Barrier helps with crowd control by quickly directing traffic away from potential hazards or restricted work zones. Customized message gives clear instructions and reduces confusion.

More convenient than retractable barricades or safety tapes.

Unlike belt barriers or cumbersome floor mount barricades, this flexible barrier is extremely portable, versatile and simple to set up. Just slip sleeves over two safety cones (not included) and create an instant visual of restricted access.

Save space easily by folding it to occupy a minimal space in your trunk or tool box. Great for taking across multiple work sites, indoors or out.
