

Grounding and Safety Flags

- Abrasion and weather resistant
- High visibility reflective for critical safety
- Versatile attachment methods

Description

These high-visibility grounds flags reduce worker exposure to energized parts when working on electrical transmission systems. Each Grounding Flag features prismatic reflective strips at the top and bottom along with a custom message in the center. We have a large selection of industry standard messages but also offer custom colors and printing. William Frick's Grounding and Safety Flags are built for durability. The materials and inks we use are UV-stable and will not fade. The heavy duty vinyl material is abrasion resistant and weather resistant.

Available sizes: 8×8 inch, 16×16 inch, or custom

8×8 inch flags are ideal for use on electrical transformers, switch gear, substation gear and junction cabinets

16×16 inch flags are used for most aerial applications and applications where long read range is a requirement

Electrical non-conducting clamps sold separately.

Additional information

Weight	N/A
Dimensions	N/A
Model Number	WFS-ES-0009 Grounding and Safety Flags
Applications	Construction, Outdoor Use, Safety & Compliance
Material	Durable Vinyl
Sizes	8" square, 16" square, Custom
Expected Outdoor Life	3 - 5 Years
Temperature Service Range	-40°F to 185°F
Colors	Orange
Water Resistance	Excellent
Solvents Resistance	Very Good
UV Resistance	Very Good
Abrasion Resistance	Very Good
Shelf Life	Completely Stable, Stored at 70F and 50% Relative Humidity
