

Lock Out Tags

- Write-on surface with self-laminating flap
- Add serial information for tracking
- Customize with images, colors, logos, size and shape upon request
- Quantity Per Pack: 25 TAGS AND 25 TIES

Description

Keep Employees Informed of Hazardous Work Conditions.

As part of a Lock Out / Tag Out (LOTO) safety program, these outdoor durable tags can be affixed to a locked device to inform workers that the device should not be turned on–great with high-voltage devices. The self-laminating flap lets you add information, permanently seal it and protect it from chemical and other environmental conditions.

Customize Tags with Important Company Information.

These Lock Out safety tags are fully customizable upon request. Print tags with the message you want for each type of equipment. Just specify tag size, color, images and logos. Lock Out Tags can be printed on one or both sides and include additional features such as serial numbers, reinforced grommets, durable self-laminating flaps, or cable ties. Text can be printed in English and/or Spanish.
