

Multi Layer Holographic Security Seals

- Multiple security features to avoid counterfeit or reproduction
- Ensures product authenticity and brand integrity
- Barcodes destroyed upon attempted removal
- Custom colors, images, barcodes or RFID

Description

Our AuthentiCal® high-security Multi Layer Holographic Security Labels are tamper-evident with up to 26 different security features and effects. Custom-designed holograms include micro/nano print, laser or UV text, hidden animated features, serial numbers or barcodes.

The high-resolution holographic labels leave behind a honeycomb pattern adhesive residue indicating tampering on each surface. Our high-security labels are ideal for protecting packaging or sensitive documents from counterfeit or forgery. Mostly used for indoor applications, these labels provide a cost-effective, high-security solution.

Additional information

Model Number	WFS-AC-HOLOGRAPHIC Multi-Layer Holographic Security Seals
Applications	Tamper Evident Seals, Barcode Labeling
Colors	Gold, Silver
Temperature Service Range	42°F to 104°F
Expected Outdoor Life	1 - 2 years
Water Resistance	Excellent
Solvents Resistance	Excellent
Oil Resistance	Excellent
UV Resistance	Good
Abrasion Resistance	Good
Adhesive	Rubber
Adhesion	Adhesion to HSE Plastics: Very Good, Adhesion to Steel at 24 hr. dwell: Very Good
Shelf Life	6 months, Stored 77°F (25°C) in its original packaging
