

Red Load Flags

- Highly visible
- Perforated for convenient dispensing
- Multiple application methods available

Description

Warn workers and the public of a potential hazard with Red Load Flags. These easy-to-use flags are perforated every 12” to conveniently tear and apply to the hazard or overhanging load using staples, nails or tape.

Red Load Flags bright red color makes them highly visible for any hazard.

Red Load Flags rolls are 3 mil thick and 12” x 300’ (perforated every 12”).
