

RFID Tool Tracking Tags

- Small, compact design for discreet installation
- Dust, water, chemical, acid, and impact-resistant
- Withstands extreme temperatures and physical stress
- Variety of attachment options including adhesives and metal
- Multiple sizes available

Description

Our RFID Tool Tracking Tags are ideal for small tools, equipment, medical instruments, electronics, and more. The compact size allows the tags to fit in small or tight spaces providing consistent asset identification.

These tags can be ordered with a variety of attachment options including permanent acrylic adhesive for smooth surfaces or epoxy mounting for rough or high vibration locations, nails or rivets. The tags are impact-resistant and designed to resist high temperatures, water, and chemical environments.

Customize your tags by laser-etching options for laser-etching, corporate data including 1D and 2D barcodes, human-readable information, and more.

Additional information

Model Number	WF-SM-TOOL Tool Tracking RFID Tag
Applications	Identification Labeling, Medical Equipment, Metal Mount, Power Equipment Labeling, Asset Marking, Asset Tracking, High Temperature
Water Resistance	Excellent
Solvents Resistance	Good
Oil Resistance	Excellent
UV Resistance	Good

RFID Performance

RFID Protocol	EPC Class 1 Gen 2; ISO 18000-6C
Tag Type	Passive Read/Write
Frequency Range	869 MHz (EU), 915 MHz (US)
User Memory	512 bits
EPC Memory	96-480 bits
IC	Alien® Higgs® 3
