

## Wif-Wipes Cleaning & Sanitizing Wipes

- Large 5" x 8" low-lint and tear resistant wipes
- Ideal for commercial and industrial use
- Sold in packs of 100 | MOQ two packs
- Private labeling available

### Description

Clean and sanitize your work surfaces with the germ-killing Wif-Wipe. These wipes are pre-moistened with an isopropyl alcohol (IPA) solution and individually packaged for ease of use, portability and to make them less likely to cross-contaminate users' hands than canister-packed wipes.

Wif-Wipes are offered in two IPA concentrations and two different cloth types. The 70% concentration is available either Unscented or Lemon Scented.

Wif-Wipes are safe to use on a variety of materials but should be tested to avoid potential damage resulting from prolonged use.

Please refer to the CDC website for more detail about IPA's disinfection properties.

All wipes are sold in pack of 100 with a minimum order quantity of two packs.

Private labeling available upon request.
